

# Professor Nick Bosanquet

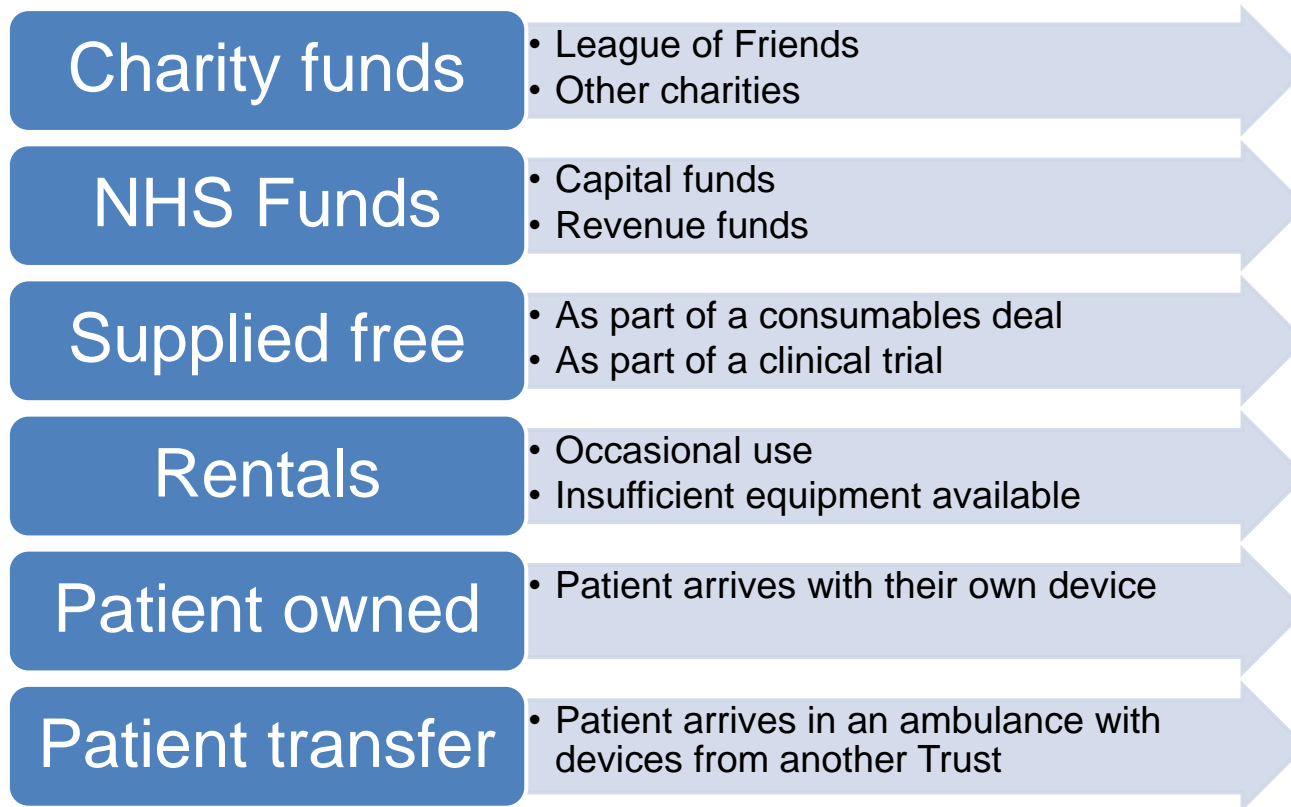

## Funding & improving EBME services in the NHS

# The World Health Organisation

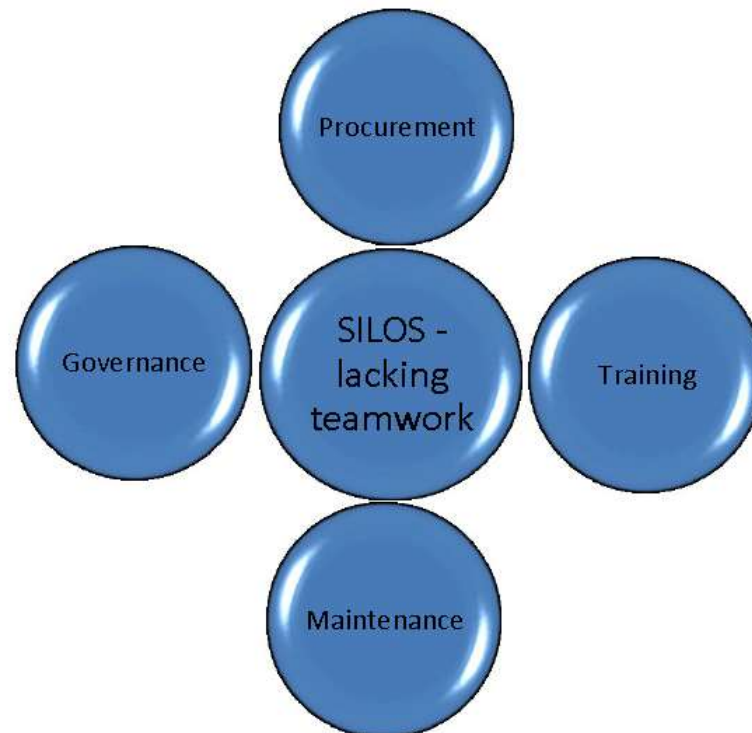

- Establish priorities in the selection and management of healthcare technologies
  - Ensure improved access, quality and use of medical products and technologies
    - WHO resolution - WHA60.29; May 2007

# We must manage the many acquisition pathways...

# We must improve practice

- Let us collaborate with interested stakeholders to create new knowledge
  - Move away from 'SILO' mentality

# Benefits of collaboration

- Improved access to technology, better quality healthcare services
  - Reduced asset size (improved utilisation)
  - Reduced maintenance spend
  - Reduced parts spend
  - Improved user training
  - Improved governance

# Discussion

- Questions and comments from the delegates?
- NB: Please use the roving microphone
