

**KANGAROO™ Programmable Enteral Feeding
and Flushing Pump JOEY type**

COVIDIEN

positive results for life™

Optimal Enteral Delivery System

KANGAROO Programmable Enteral Feeding and Flushing Pump JOEY type is the latest innovation in Enteral Feeding Pumps that delivers enteral nutrition & flushing in a mobile, easy to use and compact format.

KANGAROO Programmable Enteral Feeding and Flushing Pump JOEY type delivers:

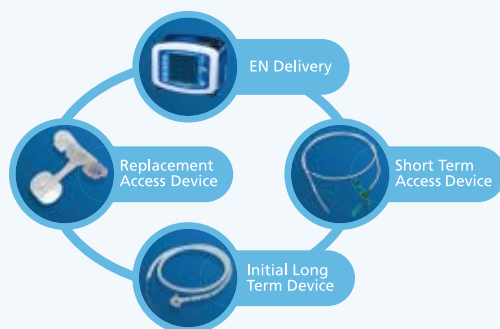

Hollistic Patient Care

Unique ambulatory feeding and flushing capabilities

- The pump's Ambulatory Feeding and Flushing capability allows 21st Century management of patient nutritional requirements
- Programmable hydration can benefit patient fluid balance and ensure tube patency in any location
- "There is no life (as we know it) without water. It is also well known that severe dehydration acutely affects health"¹
- "Flushing and Enteral Tube (in other words, keeping it free of buildup) is essential because unclogging one wastes time, effort, and resources. And tubes that can't be unclogged have to be replaced, taking up even more nursing time"...²

Easy and intuitive Nutrition Management

- 72 hours of feeding history facilitates proper patient monitoring and reduces possibility of losing delivery data
- K.T.O. (Keep Tube Open) ensures the feeding tube remains patent even when not actively feeding
- Symbolized Pump Sets allow for correct giving set type choice:

Pioneering Technology

Simple & Safe

- Intuitive and easy to use programming modes provide optimal user choice
 - *EZ Mode allows a basic set up and run program*
 - *Full feed & flush programming allows easy operation with greater options to tailor delivery to match patient's need*
- Programmable nutrition & flushing can benefit patient fluid balance and ensure tube patency in any location
- Error screens are succinct and offer easy to follow solutions
- Smart Set Technology simplifies set loading and programming

Nutrition and Hydration Delivery on the move

Independent Living

- Innovative, compact & light weight design aids discreet use for all patients whilst enhancing life style
- Orientation independence allows a continuous delivery of feed & flush in any pump position
- Shock and water resistance (IPX Rating (4) – Splash Proof) meets current demands of daily life
- 18 hours of battery life for full mobility
- User friendly and discreet Back Pack design and in car charge adapter facilitates true mobility

Pump Specifications

- Rotary Peristaltic Pump mechanism
- For use with ePUMP type sets only
- Operating Range : - 400 ml/hour in 1 ml increments
- VTBD: 1 - 3000 ml
- Bolus Volume: 1-3000 ml in 1 ml increments
- Number of Boluses: 1-99
- Bolus Interval: 1-24 hour
- Flushing Solution Volume Range: 10-500 ml in 1ml increments
- Flushing Solution Interval Range: 1-24 hour in 1 hour increments
- Accuracy: $\pm 7\%$
- Occlusion Pressure: 15 psi
- Alarms: Flow Error, Feed Error, Flush Error, Rotor Error, Feeding Complete, Pump Set Dislodged, Low Battery, System Error,
- 18 hours battery life
- 72 hours memory
- Dimensions: 10.4 x 13 x 9.1 cm
- Weight: 0.77 kg, with pole clamp: 1.043 kg.
- Languages: English, French, German, Italian, Spanish, Portuguese, Dutch, Polish, Finnish, Danish, Norwegian, Swedish, Turkish, Greek, Hungarian & Czech.

Code	Description	Qty
Programmable Enteral Feeding and Flushing Pump JOEY type		
383400	Incl. Pole Clamp, CD-Manual, Power Adaptor, Quick-User Guide	1
Feeding		
 777007	Universal Spike Set	30
